Minis F		Run 2
Minis M		Run 3

USING SEPARATE CALCULATION SHEET

- 1 Copy down the elapsed times at the start and finish for five racers before and five after the racer for whom the time is required.
- 2 Work out the back-up time for each racer.
- 3 Calculate the amount by which the recorded time is greater than (+) or less than (-) each calculated back-up time, and record in the correct column.

USING THIS SHEET

- 1 With the ten numbers, total the plus and minus columns separately; then record their times in appropriate boxes.
- 2 Add the plus and minus values together and record in the correct box (+ or -).
- 3 Divide the answer by 10 to give the time adjustment and record in the correct box.

TIME ADJUSTMENT

Transfer the back-up time for the racer for whom a time is required from the 'Calculation Sheet'.

	.
--	---

Apply the time adjustment calculated from above.
